

Venue Placement and Precautions

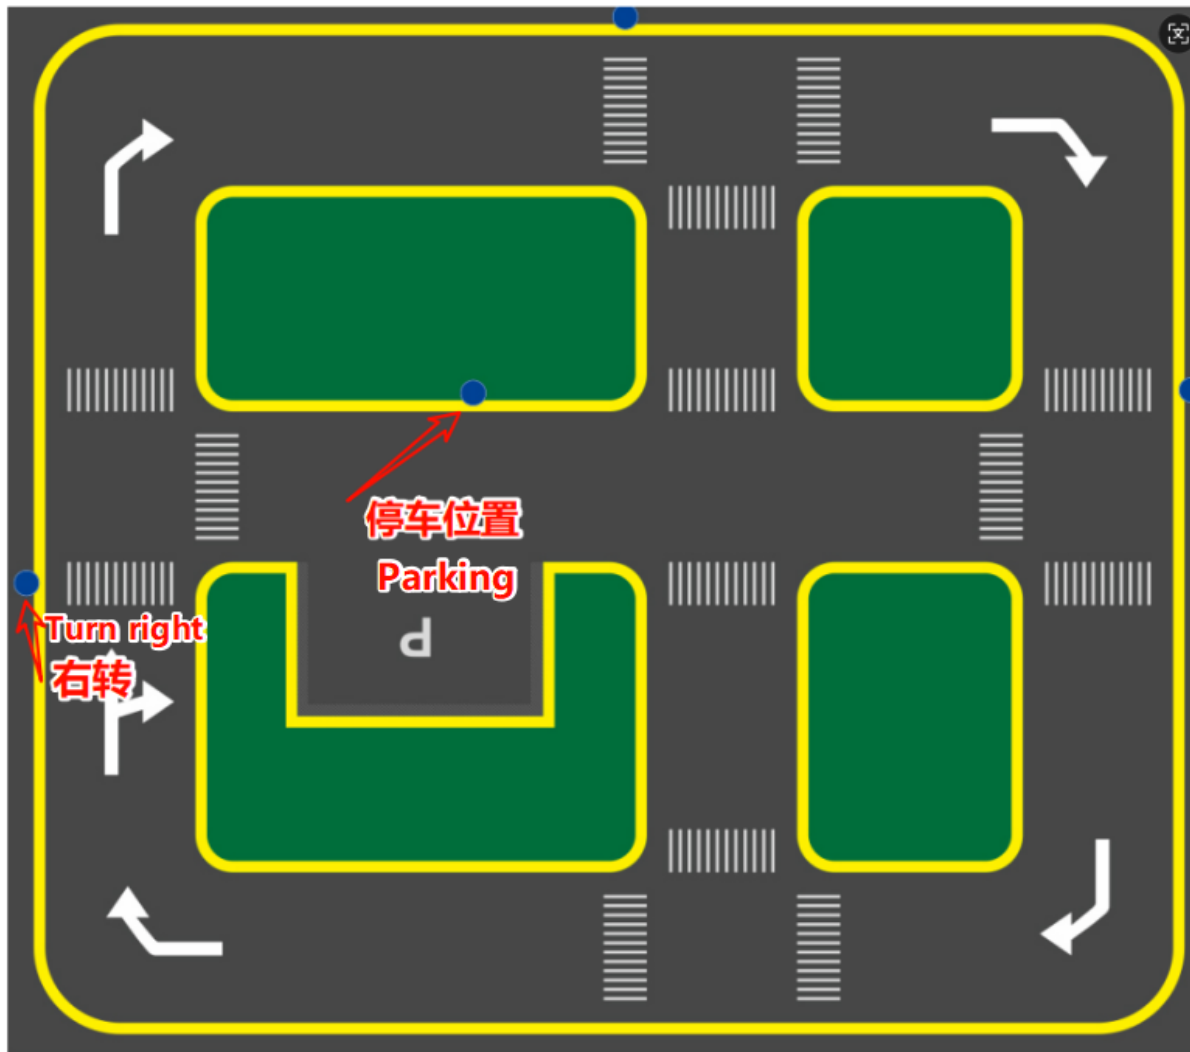

1. Autonomous Driving Placement

Lane Keeping Assist -----> Pedestrian Crossing -----> Honk Horn -----> Speed Limit -----> Right Turn -----> Parking -----> Exit -----> Lane Keeping Assist

2. Precautions

- Right turn and parking positions need to be fixed; other positions can be placed freely.

- The model is easily affected by lighting and map flatness, which can impact lane keeping performance. It is recommended to place the map flat in a uniformly lit indoor environment.
